

FOR IMMEDIATE RELEASE:

Hubbell Awarded Water Heater Contract For The PEMEX \$78 Million Offshore Drilling Platform

Stratford, CT March 5, 2013 – Hubbell Electric Heater Company, a leading manufacturer of Marine/Offshore qualified water heaters located in Stratford, CT, announced today that the company has been awarded the water heater contract for the habitation module for the latest offshore drilling platform owned by Mexico's state run oil company PEMEX.

The \$1M contract is for a fully integrated, skid based water heating and hot water distribution system, consisting of two 175 gallon stainless steel water heaters, one 1,100 gallon stainless steel storage tank, four pumps, and a fully automated control system. The complete package is over 25' long, 8' wide, 10' high and weighs approx. 12,500 lbs.

The engineered packaged system is built to withstand the harsh saltwater environment of the Gulf of Mexico and will produce critical supply hot water for the 150 rig workers living in the habitation module on the drilling platform.

Construction for the skid based package is expected to begin March 2013, with a completion date of August 2013. Hubbell will also provide onshore and offshore training and commissioning services to support the specialized heating system.

"Winning this contract is a strong testament of our capabilities and proves that a small to mid size Connecticut manufacturer is capable of competing in all parts of the world," said Sean Clarke, Vice President of Sales Hubbell Electric Heater Co. "This project exemplifies Hubbell's growth strategy of building highly engineered hot water systems and leveraging that experience and innovative technology to ensure success across the varying markets the company serves," added Scott Barry, Marketing Director of Hubbell Electric Heater Company.

About Hubbell Heaters

Headquartered in Stratford Connecticut, Hubbell Electric Heater Company is an industry-leading manufacturer of engineered water heating solutions for the Commercial, Industrial, Marine/Offshore and Naval markets. Hubbell's wide ranging expertise manufacturing engineered water heating products ensures the company provides the most suitable water heating technology to meet the needs of its customers.
